Branch *General (Education)*

Subject *Letter no 61 d the 31st oct 1903 from Mr V R Thyagaraya Iyengar, Assistant secretary on special duty*

Proposals for
(1) curtailing the Annual Report on Public Instruction and
(2) for reducing the two periodical returns sub^{to} sent in the Education Department

The results of the proposals are that the Report should consist of 20 pages of letter press and 40 pages of Statistics

2 *The return regarding the changes in village schools and that regarding building works sanctioned by the Jfl for Rs 5700⁰⁰ are considered to be unnecessary both by Mr V R Thyagaraya Iyengar and by Mr Bhatia*

The former however has to be sent by the Jfl to the Comptroller, while the latter is to be discontinued altogether.

It is stated the Jfl agrees to the several proposals made by Mr V R Thyagaraya Iyengar
1103 2 1103 sub^d with references for orders.

Subd to Secty

Mr. Iyagary Regar says that Mr. Blake
has agreed to all of his proposals

The suggestions may be approved

Mysore Government,
General & Revenue Secretariat,
Bangalore, 31st. October
1903.

From V.R. Thyagaraja Iyer Esquire, M.A.,
Asst. Secy. to the Govt. of H. I. the Maha-
raja of Mysore, on special duty.

To

I.V. Nanjundayya Esquire, M.A., M.L.,
Secy to the Govt. of H. I. the Maharaja
of Mysore, Gen. & Rev. Departments.

Sir,

With reference to Govt. proceedings dated 24th.
July 1903, No. 320-60, I have the honour to make the
following proposals for curtailing the Annual Report
on Public Instruction and for reducing two periodical
returns submitted to Govt. in the Education Department
2. The Report on Public Instruction for 1901-02
consists of 25 pages of letter press and 40 pages of
Statistics. The suggestions which I make for the cur-
tailment of this Report and which have been accepted
by the Inspector General of Education are—

(a). That the tabular Statistics in paras 13, 14, 18,
19 and 24 may be put in narrative form.

(b). That the tables in paras 11, 16, 23, 34, and 31 may
be relegated to the Appendix and that the table in para
3 which is special for 1901-02 will not be repeated
every year.

(c). That the maximum length of the Report may be
fixed at 18 printed pages of text and 40 pages of Sta-
tistics, Appendices B(18) and B(19) not being repeated

NOT much from
either in space or
clearness

This is all
right
+ +

in future year

3. From the above it will be seen that the tabular Statistics in paras 6, 12, 15, 17, 25, 40 and 65 of the text are proposed to be retained. Para 13 of the Resolution of the Govt. of India dated 24th February 1901 requires that the body of the Report should be almost entirely in narrative form and that the number of tables appearing in the narrative should be few and simple and their number rigidly restricted. Having had the benefit of perusing the papers showing the effect given to this direction in the case of the Report on Public Instruction in Bombay and of the advice of the Inspector General of Education as regards the retention of these tables, I am convinced that their retention in the body of the Report is indispensable.

4. In their letter No. 2740 dated 26th March 1901 to the Bombay Govt., the Govt. of India desired that greater attention should be paid to the following subjects in the Report on Public Instruction than has hitherto been given to them --

(a) Training schools for teachers and the re-placement of untrained by trained teachers in Indian education institutions generally.

(b) The widening of the schemes for education so as to make the education given more suitable for all the varied forms of modern industrial life.

(c) The development of various forms of technical or other schools dealing with what may be called practical education and the tendency of students to take to such training.

(d) Discipline and moral training attendance.

(e) The provision of hostels for pupils compelled to

live away from their homes.

(f) The preparation and supply of suitable text-books.

(g) The special means by which female education can be fostered, raised and developed.

(h) The possibility of having what may be called "continuation Schools" for the children of those classes who leave school early.

(i) The provision by local effort of proper school accommodation.

(j) The provision by local effort of forms of education intended to foster and develop local industries. As a matter of fact, the Report for Mysore contains ~~contains~~ information on some of the above points, but the attention of the Inspector General of Education may be drawn to the views of the Govt. of India, the maximum limit of length of the Report being raised by 2 pages (to 20 pages of text) if necessary.

5. A monthly Return of changes and transfers in village schools is now being submitted by the Inspector General of Education to Government, under Govt. Proceedings dated 18th April 1896, No. ³11576-4. This Return is recorded by Govt., a copy being forwarded to the Comptroller. As only indispensable changes and transfers are effected by the Inspector General of Education, the Return to Govt. may, in my opinion, be dispensed with, the Inspector ^{General} being requested to send the Return direct to the Comptroller. The Inspector General agrees in the above view.

6. A monthly Statement of sanction of works costing not more than Rs. 500 has been prescribed by Govt.

The return
does ~~not~~ ^{File}
infer to Govt.
was No. 11576-4
called ~~File~~ ⁷
for deliberation But
the Power is in
that may safely
be left to Jy
of Govt. & so the
return may be
stopped - a half
yearly list being
obtained in its
place for info of
necessary -

Proceedings dated 11th January 1897, No. 7877-8, but
Ed. F. 19-96
the Return has not of late been submitted either to the
Government or the Comptroller. The Inspector General
states that in the case of works costing not more than
Rs. 500, the bills are sent for audit to the Comptroller
who has thus a record of how the money is spent. For this
reason as well as for the reason that no harm appears to
have come out of the non-submission of the Returns, the
Return may be formally discontinued.

File put up.

Order thereon No Dated Nov '03.

The proposals made by Mr. V.R.
Thyagaraja Iyer in paras 2 and 3 of ~~the~~
his letter read above which have been
agreed to by the I G are approved
2) The I.G's attention is drawn to
para 4 of the letter and he is request
ed to pay greater attention to the sub-
jects mentioned therein in his future

future reports ,the maximum length ~~of~~
~~thereof being~~ raised by two pages (to
20 pages of text) if necessary) as sug-
gested by Mr. V.R.Thyagaraja Iyer

3. The monthly return of changes
and transfers in village schools will
be abolished and in its place a half ~~a~~
yearly list of such changes will in
future be submitted by the I G for the
information of Govt.

4 The submission of monthly state-
ments of building works sanctioned by the
I G under the authority of Govt Proc.
Number 7877-8 / Ed F 19-96 dated the
11th January 1897 will be discontinued
The I.G will however forward such list
to the Comptroller direct.

Mr. V R Thyagaraja Iyer M.L.
Asst Secy to Govt, on Special duty

Proceedings of the Government of His Highness the Maharaja of Mysore

READ—

Letter No 61 dated the 31st October 1903 from Mr V R Thyagaraja Iyer M A, Assistant Secretary to Government on special duty making the following proposals for curtailing the Annual Report on Public Instruction in Mysore and for reducing the two periodical returns submitted to Government by the Inspector General of Education in the Education Department

2 The Report on Public Instruction for 1901-02 consists of 20 pages of letter press and 40 pages of statistics. The suggestions which I make for the curtailment of this Report and which have been accepted by the Inspector General of Education are—

- (a) that the tabular statistics in paras 13, 14, 18, 19 and 54 may be put in narrative form
- (b) that the tables in paras 11, 16, 28, 34 and 51 may be relegated to the appendix and that the table in para 3 which is special for 1901-02 will not be repeated every year
- (c) that the maximum length of the Report may be fixed at 18 printed pages of text and 40 pages of statistics, Appendices B (18) and B (19) not being repeated in future years.

3 From the above it will be seen that the tabular statistics in paras 6, 12, 15, 17, 20, 40 and 60 of the text are proposed to be retained. Para 13 of the Resolution of the Government of India dated 24th February 1901 requires that the body of the Report should be almost entirely in narrative form and that the number of tables appearing in the narrative should be few and simple and their number rigidly restricted. Having had the benefit of perusing the papers showing the effect given to this direction in the case of the Report on Public Instruction in Bombay and of the advice of the Inspector General of Education as regards the retention of these tables I am convinced that their retention in the body of the Report is indispensable.

4 In their letter No 2740 dated 26th March 1901 to the Bombay Government the Government of India desired that greater attention should be paid to the following subjects in the Report on Public Instruction than has hitherto been given to them —

- (a) Training Schools for teachers and the replacement of untrained by trained teachers in Indian Education Institutions generally
- (b) The widening of the schemes for education so as to make the education given more suitable for all the varied forms of modern industrial life
- (c) The development of various forms of technical or other schools dealing with what may be called practical education and the tendency of students to take to such training
- (d) Discipline and moral training attendance
- (e) The provision of hostels for pupils compelled to live away from their homes
- (f) The preparation and supply of suitable text books
- (g) The social means by which female education can be fostered raised and developed
- (h) The possibility of having what may be called 'continuation schools' for the children of those classes who leave school early
- (i) The provision by local effort of proper school accommodation
- (j) The provision by local effort of forms of education intended to foster and develop local industries. As a matter of fact, the Report for Mysore contains information on some of the above points but the attention of the Inspector General of Education may be drawn to the views of the Government of India the maximum limit of length of the Report being laid by 2 pages (to 20 pages of text) if necessary

5 A monthly return of changes and transfers in village schools is now being submitted by the Inspector General of Education to Government under Government Proceedings, dated 13th April 1896 No 11573-4—Ld F 396. This return is recorded by Government a copy being forwarded to the Comptroller. As only indispensable changes and transfers are effected by the Inspector General of Education the return to Government may, in my opinion be dispensed with the Inspector General being requested to send the return direct to the Comptroller. The Inspector General agrees in the above view.

6 A monthly statement of sanction of works costing not more than Rs. 500 has been prescribed by Government Proceedings dated 11th January 1897 No 7877-8—Ld F 1996; but the return has not of late been submitted either to the Government or the Comptroller.
